HIRING THE IVEL SPRINTER: FAQs

Charges

We currently charge 90 pence per mile (ppm) + VAT which equates to £1.08 ppm which is a much easier figure to work on. This figure includes fuel & insurance costs.

The daily rate is £50.00 per day plus VAT which equals £60.00 including insurance but not fuel.

Pence per mile or daily basis?

It's all done to make it easier/cheaper for the hirer. Up to about 55 miles per round trip, it's cheaper to pay 90ppm + VAT. Further than that it's cheaper for you to pay £50 + VAT on a "day" booking and put your own fuel in.

How far in advance do I need to book?

Obviously the sooner you book the better, especially at special holiday times or weekends. The best thing to do is make a provisional booking, then try to raise the numbers of people going and then firm up on the booking.

Bookings

Contact Stan Short on 01767 315777

Who drives?

The hirer provides his/her own driver, who must be competent and confident to drive a long wheelbase vehicle, and hold a class D1 licence. He/she will need to produce his/her driving licence.

However, as we also operate a daily scheduled bus service driven by volunteers, we can sometimes ask one of them to drive for you if there's a problem.

I hope this answers most of your questions, but if there are other problems, please don't hesitate to contact me.
